

Art. No.: A 5091

Montana RAUM, IW 24, high quality interior wall paint, white

- white interior wall paint for walls and ceilings
- dispersion paint, does not drip or splash
- covering power grade 2 according to DIN EN 13300
- wet abrasion grade 3 according to DIN EN 13300
- solvent-free

Specification: Interior wall paint based on an acrylic copolymer emulsion, classification for painters & decorators, resistant to wiping, matt. White, for walls and ceilings. Good covering power. Ecologically friendly, water-based.

Application: by roller, brush or spray-gun.

Classification: covering power grade 2, wet abrasion grade 3, according to DIN EN 13300.

Color: white.

Substrate: Interior plaster, concrete, brickwork, wall paper and ingrain wall paper, drywall, as well as for the re-coating of intact old coatings based on dispersion or oil.

Further processing: not applicable.

Consumption: ca. 6 m² / liter per single coat.

VOC directives 2010: Cat A / base wb / max. value 30 g/L / actual value 29 g/L

Application areas:

For interior coating in inhabited and non-inhabited rooms. For interior plaster, drywall, concrete, hardboard, expanded plastic slab and wallpaper.

For professional use.

Properties:

Can be thinned with water, solvent-free dispersion paint, ecologically friendly and of low odor. Washable, excellent covering power, for interior walls and ceilings with high strain. Free from formaldehyde and halogen. Heavy metal free preservation.

Technical Notice:

Application method:	by brush, roller or spray-gun
Degree of gloss:	matt
Processing temperature:	not below 8° C (material, air and room temperature)
Consumption:	1 liter sufficient for 6 m ² on smooth surfaces. Consumption higher on rough surfaces. On fine plastic coatings test consumption first.
Drying time:	at 20 °C and 65 % relative humidity surface dry after 2-4 hrs. and ready to re-coat. Hard-dry and sustainable after ca. 3 days.

	At lower temperatures and higher humidity drying time will be increased.
Cleaning of the tools:	with water immediately after use.
Tinting:	with compatible tinting pigments.
General notice:	stir well before use and after longer breaks. Do not mix with products containing solvents.
Flashpoint:	none.
Danger class:	no labeling required. VbF: not applicable, Gef. Stoff V: no labeling required, GGVS / ADR: no labeling required.

Coating system: The surface to be coated must be clean, dry, free from oil and grease and sustainable. Not sustainable or flaking surfaces must be removed. Please observe VOB (German Construction Contract Procedures), part C, DIN 18363, para. 3. Wash glue-bound distemper or chalky surfaces thoroughly. Absorbent or critical surfaces should be pre-coated with Rhenocoll Aqua Tiefgrund, apply Montana INNEN, IW 24 undiluted for the pre-coat and top coat.

Undercoat with Montana INNEN, IW 24, dilute with up to 10% water.

Final coat with Montana INNEN, IW 24, undiluted.

Storage:

Store in the original container not below 8°C. Do not store or transport for longer periods over 30°C. Close firmly. Can be stored in the unopened original container for 6 months. Use opened containers soon.

Supply form:

- 2,5 liter pail
- 5,0 liter pail
- 15,0 liter pail

Disposal:

Use leftover paint or let it dry out and then dispose of as household waste. Liquid leftover paint should be disposed of at the waste disposal collecting point for used lacquers.

Ecology:

Do not discharge into the drains / surface waters / groundwater. Avoid eating, drinking and smoking during processing.

Safety Advice:

Even when processing low-emission paints the usual safety measures are to be observed. Keep under lock and out of reach of children. Do not inhale spraying mist. During and after processing sufficient ventilation must be given. In case of contact with eyes or skin rinse immediately with water.

Service:
